

## Comparison of 1997 NAICS-based ISI codes with 1987 SIC-based ISI codes

The following table shows how the international surveys industry (ISI) codes based on the 1997 North American Industry Classification System (NAICS) (referred to hereafter as 1997 ISI codes) correspond to the ISI codes based on the 1987 Standard Industrial Classification (SIC) (referred to hereafter as 1987 ISI codes). The table has five columns:

The first column shows the 1997 ISI code

The second column shows the industry name for the 1997 ISI code

The third column shows the 1987 ISI code(s) that corresponds to the 1997 ISI code

The fourth column shows the industry names for the 1987 ISI codes in the third column

The fifth column shows the 1987 ISI activity for those 1987 ISI codes that only partly correspond to the 1997 ISI code

If the 1987 ISI code and industry name shown in the third and fourth columns are in **boldface** and there is no entry on that line in the fifth column, all or nearly all, activities covered by the 1987 ISI code are included in the corresponding 1997 ISI code. If the 1987 ISI code and industry name shown in the third and fourth columns are not in boldface, only some of the activities covered by the industry are included in the 1997 ISI code shown in the first column and the activities covered by the 1997 ISI code are shown in the fifth column. Some entries in the fifth column refer to SIC codes.

Consult BEA's Guide to Industry and Foreign Trade Classifications for International Surveys for a comprehensive list of activities included in each 1997 ISI industry. The Guide is available on the Internet at <http://www.bea.doc.gov/bea/surveys/be799.pdf>  
For additional information on the NAICS and its correspondence to the SIC, see <http://www.census.gov/epcd/www/naics.html>
