

## Personal Consumption Expenditures by State, 2019

State personal consumption expenditures (PCE) increased 3.9 percent in 2019, a deceleration from the 4.9 percent increase in 2018. The percent change in PCE across all states ranged from 5.7 percent in Utah to 1.8 percent in Vermont.

U.S. Bureau of Economic Analysis

- Expenditures on housing and utilities, and on health care grew 4.3 percent and 4.5 percent, respectively, and were the leading contributors to growth nationally.
- Expenditures on gasoline and other energy goods, and on motor vehicles and parts decreased 4.0 and 0.3 percent, respectively.
- Across all states and the District of Columbia, per capita PCE was \$44,276. Per capita PCE by state ranged from a high of \$56,231 in Massachusetts to a low of \$32,329 in Mississippi. Per capita PCE in the District of Columbia was \$65,352.

BEA data—including GDP, personal income, the balance of payments, foreign direct investment, the input-output accounts, and economic data for states, local areas, and industries—are available at [www.bea.gov](http://www.bea.gov). [E-mail alerts](#) are also available.

NOTE: Personal consumption expenditures by state, 2020 will be released October 8, 2021.
