Understanding Reporting Relationships (For use on Schedules A and B)

Transactions accrued during the reporting period should be reported by the country of the foreign transactor, and by the foreign transactor's relationship to the **U.S. Reporter**. The relationship between the **U.S. Reporter** and the foreign transactor falls into one of three categories:

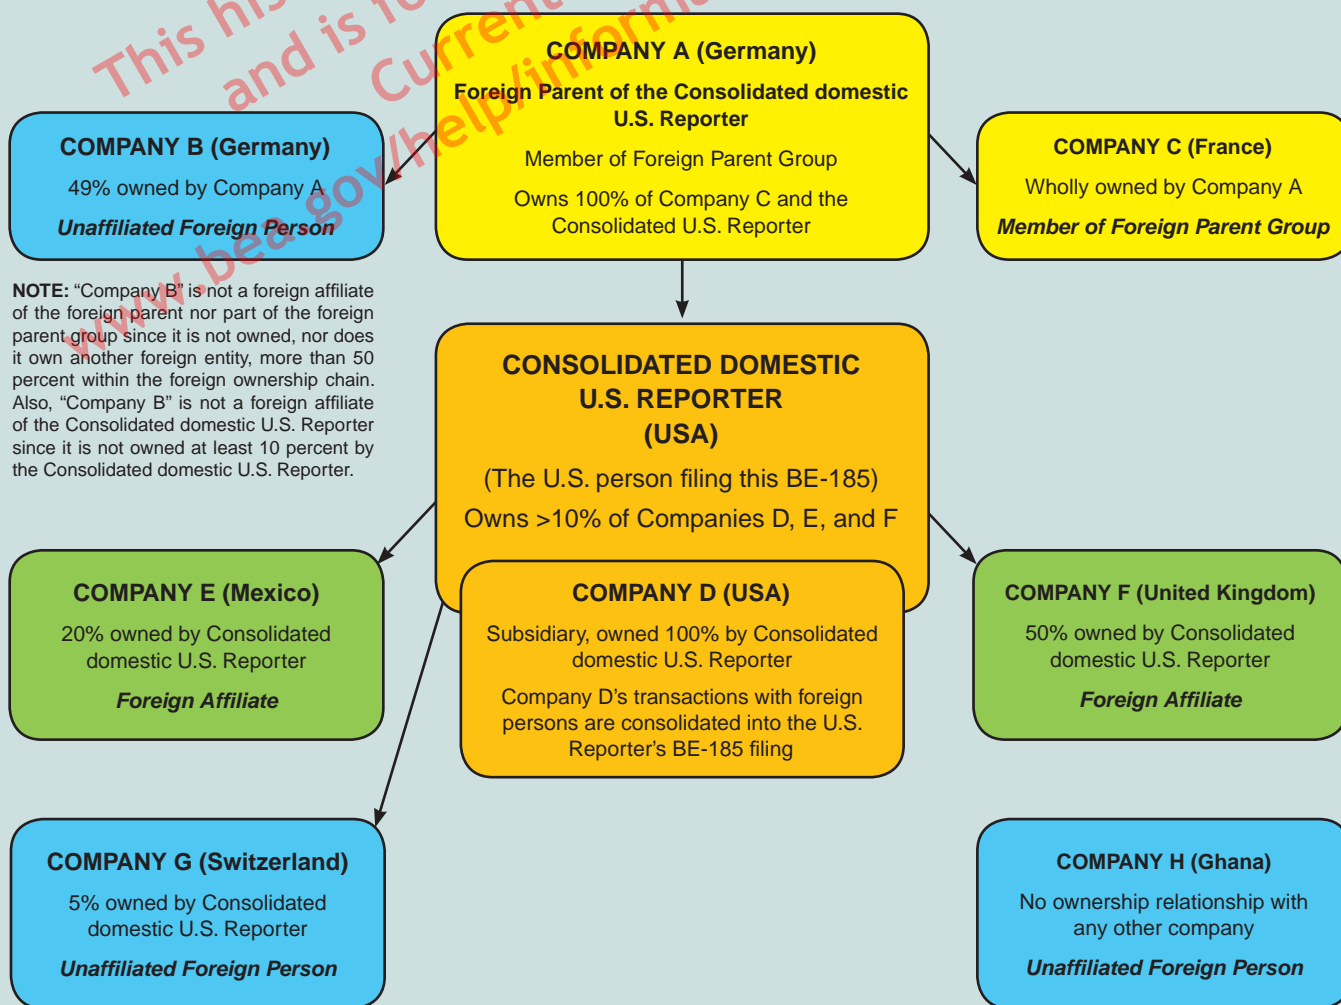

Foreign Affiliates – A foreign affiliate is defined as an entity domiciled in a foreign country that is owned at least 10 percent (based on voting interest), directly or indirectly, by the U.S. Reporter.

Foreign Parents and Foreign Affiliates of Foreign Parents (aka the “foreign parent group”) – Foreign Parents and Foreign Affiliates of Foreign Parents (aka the “foreign parent group”) means all of the following:

- (i) the foreign parent, which is the first entity outside the United States in a foreign chain of ownership, that owns at least 10 percent (based on voting interest), directly or indirectly, of the consolidated domestic U.S. business enterprise.
- (ii) any foreign entity proceeding up the foreign parent's ownership chain, that owns more than 50 percent of the entity below it up to and including the entity that is not owned more than 50 percent by another foreign entity,
- (iii) any foreign entity, proceeding down the ownership chain(s) of each of these members, that is owned more than 50 percent by the entity above it.

Unaffiliated Foreign Persons – An unaffiliated foreign person is an entity domiciled abroad that is not owned, or is owned less than 10 percent, directly or indirectly, by the U.S. Reporter or the U.S. Reporter's foreign parent.

The diagram below illustrates each of these relationships with regards to the U.S. Reporter. **Additional reporting instructions are provided prior to each Schedule on pages 9 and 11.**

➔ Continue to Schedules A and B as indicated, based on your responses to questions 7 and 8 on page 7.

SCHEDULE A – U.S. Reporter’s Sales of Financial Services to Foreign Persons

REPORTING INSTRUCTIONS – Schedule A

Complete a separate **Schedule A** for each service type with sales greater than \$500.00, as indicated in **Table 1** on page 6. If you are reporting sales of more than one service type, or need to report additional country detail, please use the overflow sheets provided (page 20–22 of the survey) or download additional overflow sheets at www.bea.gov/ssb. (eFile users – select “Add overflow” from the survey selection page.)

Sales accrued during the reporting period should be reported by service type and according to the U.S. Reporter’s affiliation with the purchaser. ONLY report transactions between the U.S. Reporter’s domestic operations and foreign persons. DO NOT report sales between the U.S. Reporter’s foreign affiliates and foreign persons, between the U.S. Reporter’s domestic operations and other U.S. persons, or sales between other U.S. persons and the U.S. Reporter’s foreign affiliates.

Table 1 on page 6 identifies the types of services that are reportable on **Schedule A** and corresponding numerical service codes (from column 1 of the **Table**). Columns 3, 4, and 5 on **Schedule A** correspond to the U.S. Reporter’s affiliation with the foreign purchaser.

How to Report:

- For each service type that is reportable, select the associated service code from the dropdown box at the top of **Schedule A**.
- Enter the country(ies) with which you had sales of this service type in the left most column of **Schedule A** (SALES TO – Specify country).
- For each country, enter the total value of the sale(s) you had of this service type **during the reporting period** in the column that corresponds to the purchaser’s relationship with the U.S. Reporter (see page 8 for more information on reporting relationships):

SCHEDULE B – U.S. Reporter’s Purchases of Financial Services from Foreign Persons

REPORTING INSTRUCTIONS – Schedule B

Complete a separate **Schedule B** for each service type with purchases greater than \$500.00, as indicated in **Table 1** on page 6. If you are reporting purchases of more than one service type, or need to report additional country detail, please use the overflow sheets provided (pages 20–22 of the survey) or download additional overflow sheets at www.bea.gov/ssb. (eFile users – select “Add overflow” from the survey selection page.)

Purchases accrued during the reporting period should be reported by service type and according to the U.S. Reporter’s affiliation with the seller. ONLY report transactions between the U.S. Reporter’s domestic operations and foreign persons. DO NOT report transactions between the U.S. Reporter’s foreign affiliates and foreign persons, or between the U.S. Reporter’s domestic operations and other U.S. persons, or transactions between other U.S. persons and the U.S. Reporter’s foreign affiliates.

Table 1 on page 6 identifies the types of services that are reportable on **Schedule B** and corresponding numerical service codes (from column 1 of the **Table**). Columns 3, 4, and 5 on **Schedule B** correspond to the U.S. Reporter’s affiliation with the foreign seller.

How to Report:

- For each service type that is reportable, select the associated service code from the dropdown box at the top of **Schedule B**.
- Enter the country(ies) with which you had purchases of this service type in the left most column of **Schedule B** (PURCHASES FROM – Specify country).
- For each country, enter the total value of the purchase(s) you had of this service type **during the reporting period** in the column that corresponds to the seller’s relationship with the U.S. Reporter (see page 8 for more information about reporting relationships):

Report in column	Relationship with consolidated domestic U.S. Reporter
3	Transactions between the U.S. Reporter and a foreign affiliate
4	Transactions between the U.S. Reporter and its foreign parent group
5	Transactions between the U.S. Reporter and unaffiliated foreign persons

Example:

Your company purchased \$4,500,000 in securities and lending services from its foreign parent group in Canada.

GENERAL INSTRUCTIONS

Public reporting burden for this BE-185 report is estimated to average 10 hours per response. This burden includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate to Director, Bureau of Economic Analysis (BE-1), U.S. Department of Commerce, 4600 Silver Hill Rd., Washington, DC 20233; and to the Office of Management and Budget, Paperwork Reduction Project 0608-0065, Washington, DC 20503.

Purpose – Reports on this form are required to obtain reliable and up-to-date information on financial services transactions between U.S. financial services providers and foreign persons. The data will be used in compiling the U.S. international transactions accounts and national income and product accounts. The information will also be used to formulate U.S. policy and to analyze the impact of that policy and the policies of foreign countries on such international transactions.

Authority – This survey is being conducted under the authority of the International Investment and Trade in Services Survey Act (P.L. 94-472, 90 Stat. 2059, 22 U.S.C. 3101-3108, as amended—hereinafter “the Act”), and by Section 5408 of the Omnibus Trade and Competitiveness Act of 1988 (P.L. 100-418, 15 U.S.C. 4908(b)). Regulations for the survey may be found in 15 CFR Part 801. The survey has been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act (44 U.S.C. 3501, et seq.).

Penalties – Persons who fail to report may be subject to a civil penalty, and to injunctive relief commanding such person to comply, or both. These civil penalties are subject to inflationary adjustments. Those adjustments are found in 15 CFR 6.4. Persons who willfully fail to report shall be fined, and, if an individual, may be imprisoned for not more than one year, or both. Any officer, director, employee, or agent of any corporation who knowingly participates in such violations, upon conviction, may be punished by a like fine, imprisonment, or both. (See 22 U.S.C. 3105). Notwithstanding the above, a person is not subject to any penalty for failure to report if a valid OMB control number is not displayed on the form. The control number for Form BE-185 (0608-0065) is displayed at the top of the first page of this form.

Confidentiality – The Act provides that your report to this Bureau is **confidential** and may be used only for analytical and statistical purposes. Without your prior written permission, the information filed in your report **cannot** be presented in a manner that allows it to be individually identified. Your report **cannot** be used for purposes of taxation, investigation, or regulation. Copies retained in your files are immune from legal process. Per the Cybersecurity Enhancement Act of 2015, your data are protected from cybersecurity risks through security monitoring of the BEA information systems.

I. WHO IS TO REPORT AND GENERAL COVERAGE

A. Who must report – A response is required from each U.S. person that was notified by BEA about the survey.

1. Mandatory and voluntary reporting

a. Mandatory reporting – A complete BE-185 report is required from each U.S. person that:

- (1) is a financial services provider or intermediary (*see Part I.B.1. of these Instructions*), or whose consolidated U.S. enterprise includes a separately organized subsidiary, or part, that is a financial services provider or intermediary; AND
- (2)(a) had sales to foreign persons in all financial services combined (*see Part VI. of these Instructions*) that exceeded \$20,000,000 for the previous fiscal year, or are expected to exceed that amount in the current fiscal year, OR
- (2)(b) had purchases from foreign persons in all financial services combined that exceeded \$15,000,000 for the previous fiscal year or are expected to exceed that amount in the current fiscal year.

The \$20,000,000 (sales) and \$15,000,000 (purchases) thresholds for mandatory reporting are based on combined financial services transactions with foreign persons by all parts of the consolidated U.S. domestic reporter that are financial services providers or intermediaries. Because these thresholds apply separately to sales and purchases, the mandatory reporting requirements may apply only to sales, only to purchases, or to both.

The determination of whether a U.S. financial services provider or intermediary is subject to mandatory reporting may be based on the

judgement of knowledgeable persons in a company who can identify reportable transactions, on a recall basis, with a reasonable degree of certainty, without conducting a detailed records search.

Complete pages 1–7 of the form, and the mandatory tables of Schedule A and/or B as required. Enter the total transaction amounts, applicable to a particular schedule, in the appropriate column(s) on line 29 of the schedule. Distribute amounts to the foreign country(ies) involved in the transaction(s) on lines 1–28. Use additional copies of the schedules, or the available overflow sheets, to report additional countries as necessary.

A U.S. person contacted by BEA who had covered transactions that exceeded one of the mandatory reporting thresholds (\$20,000,000 in sales OR \$15,000,000 in purchases) during the reporting period, but did not meet both of these mandatory reporting thresholds is required to report the total of those transactions (sales or purchases) below the threshold in question 10 on page 7. Alternatively, the U.S. Reporter may report either:

- (1) totals by service type on line 30 of Schedules A or B, as appropriate, or
- (2) the full detail (by service type and by country) on lines 1–28 of Schedules A or B, as appropriate.

A U.S. person with combined sales that were \$20,000,000 or less AND combined purchases that were \$15,000,000 or less during the previous fiscal year, and are expected to fall below those thresholds in the current fiscal year is required to report the amounts in question 10 on page 7. Alternatively, the U.S. Reporter may report either:

- (1) totals by service type on line 30 of Schedules A or B, as appropriate, or
- (2) the full detail (by service type and by country) on lines 1–28 of Schedules A or B, as appropriate.

b. Voluntary reporting – A U.S. person who is not notified by BEA about this survey but has transactions of the type covered by the survey is requested to provide an estimate of those covered transactions for the quarterly period covered by this form. Provision of this information is voluntary. The estimates may be judgmental. If you elect to file voluntarily, please complete parts I and II and report the total of your covered transactions (sales and/or purchases) in question 10 on page 7. Alternatively, you may report either:

- (1) totals by service type on line 30 of Schedules A and/or B, as appropriate, or
- (2) the full detail (by service type and by country) on lines 1–28 of Schedules A and/or B, as appropriate.

c. Exemption – Any U.S. person that was notified by BEA about this survey, but has no transactions of the types of services covered, must complete and return pages 1–7.

2. Consolidation – A U.S. enterprise should file a single Form BE-185 covering combined (total) financial services transactions of all its domestic subsidiaries, and parts, that are financial services providers.

If the U.S. Reporter is a corporation, please complete Form BE-185 to cover reportable transactions for the fully consolidated U.S. domestic enterprise consisting of (i) the U.S. corporation whose voting securities are not owned more than 50 percent by another U.S. corporation, and, proceeding down each ownership chain from that U.S. corporation, (ii) any U.S. corporation whose voting securities are more than 50-percent owned by the U.S. corporation above it.

The fully consolidated U.S. domestic enterprise excludes foreign branches and other foreign affiliates owned by your company.

Consolidating unincorporated enterprises

Consolidate into your BE-185 report the transactions of unincorporated enterprises in which your company has voting control. Please see the following items on determining the voting interest in typical unincorporated enterprises.

Partnerships – Most partnerships are either general partnerships or limited partnerships. Consolidation of partnerships and inclusion of their insurance services transactions (sales and purchases) on the BE-185 survey is based on voting control.

a. General partnerships

Determination of voting interest – The determination of the percentage of voting interest of a general partner is based on who controls the

GENERAL INSTRUCTIONS – Continued

partnership. The percentage of voting interest is not based on the percentage of ownership in the partnership's equity. The general partners are presumed to control a general partnership.

Unless a clause to the contrary is contained in the partnership agreement, a general partnership is presumed to be controlled equally by each of the general partners.

Managing partners – If one general partner is designated as the managing partner, responsible for the day-to-day operations of the partnership, this does not necessarily transfer control of the partnership to the managing partner. If the managing partner must obtain approval for annual operating budgets and for decisions relating to significant management issues from the other general partners, then the managing partner does not have a 100 percent voting interest in the partnership.

b. Limited partnerships

Determination of voting interest – The determination of the percentage of voting interest in a limited partnership is based on who controls the partnership. The percentage of voting interest is not based on the percentage of ownership in the partnership's equity. In most cases, the general partner is presumed to control a limited partnership, and therefore, have a 100 percent voting interest in the limited partnership. If there is more than one general partner, the partnership is presumed to be controlled equally by each of the general partners, unless a clause to the contrary is contained in the partnership agreement. Therefore, unless a clause to the contrary is contained in the partnership agreement, limited partners are presumed to have zero voting interest in a limited partnership.

Managing partners – See discussion under "General Partnerships" above.

c. Limited Liability Companies (LLCs)

Determination of voting interest – The determination of the percentage of voting interest in an LLC is based on who controls the LLC. The percentage of voting interest is not based on the percentage of ownership in the LLC's equity. LLCs are presumed to be controlled equally by each of its members (owners), unless a clause to the contrary is contained in the articles of organization or in the operating agreement.

Managing member – If one member is designated as the managing member responsible for the day-to-day operations of the LLC, this does not necessarily transfer control of the LLC to the managing member. If the managing member must obtain approval for annual operating budgets and for decisions relating to other significant management issues from the other members, then the managing member does not have a 100 percent voting interest in the LLC.

B. General coverage – additional information

1. Definition of financial services provider – The definition of financial services providers used for this survey is identical to the definition of the term as used in the North American Industry Classification System, United States, 2012, Sector 52—Finance and Insurance, and holding companies that own or influence, and are principally engaged in making management decisions for these firms (part of Sector 55—Management of Companies and Enterprises).

For example, companies and/or subsidiaries and other separable parts of companies in the following industries are regarded as financial services providers: depository credit intermediation and related activities (including commercial banking, savings institutions, credit unions, and other depository credit intermediation); non-depository credit intermediation (including credit card issuing, sales financing, and other non-depository credit intermediation); activities related to credit intermediation (including mortgage and nonmortgage loan brokers, financial transactions processing, reserve, and clearinghouse activities, and other activities related to credit intermediation); securities and commodity contracts intermediation and brokerage (including investment banking and securities dealing, securities brokerage, commodity contracts and dealing, and commodity contracts brokerage); securities and commodity exchanges; other financial investment activities (including miscellaneous intermediation, portfolio management, investment advice, and all other financial investment activities); insurance carriers; insurance agencies, brokerages, and other insurance related activities; insurance and employee benefit funds (including pension funds, health and welfare funds, and other

insurance funds); other investment pools and funds (including open-end investment funds, trusts, estates, and agency accounts, real estate investment trusts, and other financial vehicles); and holding companies that own, or influence the management decisions of, firms principally engaged in the aforementioned activities.

Filing options for holding companies that own only nonfinancial subsidiaries:

- You may report your **purchases** of financial services from foreign persons on Form BE-185; or
- You may report such purchases on Form BE-125, Quarterly Survey of Transactions in Selected Services and Intellectual Property with Foreign Persons. (See BEA's web site www.bea.gov/ssb for information on this form.)

In either case, **sales** of financial services to foreign persons must be reported on Form BE-185 if the U.S. Reporter is contacted by BEA about this survey.

2. Clarification of general coverage

- a. Report sales or purchases for the reporting period in which they occurred or were charged (that is, in the period when the provider of the service recognizes or performs the services), whether expensed by the purchaser of the service in that accounting period, amortized over several accounting periods, or included in expenses in a subsequent accounting period. For example, report payments of credit-related fees in the period when credit-related services are charged, whether or not the charge for the service is included in the purchaser's expenses for that particular accounting period. See VI. of these Instructions for an explanation of what measures should be applied in determining whether you are subject to the BE-185 survey's mandatory reporting requirements for a given type of service.
- b. When a sale or purchase consists of services that are commingled or bundled (that is, the different types of services are not separately billed), you should unbundle the transaction whenever possible. When the transaction cannot be unbundled, it should be classified based on whichever service accounts for the largest share of its value. However, do not unbundle the transaction if the services are billed together because they are integral parts of the same transaction (for example, if the fee for financial management services includes payment for custody and other services that are regarded as integral parts of financial management services).

II. WHAT TO REPORT

- A. Report transactions with affiliated foreign persons as well as with unaffiliated foreign persons (see Part IV. for more information on reporting relationships).
- B. Report covered transactions between the U.S. Reporter and a foreign person regardless of whether the service was performed in the United States or abroad. Note that the reporting requirements are determined by whom the transactions are with and not by where the services are performed or the location of the buyer and seller at the time of the transaction. Thus, reportable transactions may include those conducted over the Internet or other networks (for example, brokerage or financial advisory services sold to foreign persons over the Internet).
- C. Report transactions with U.S. affiliates of foreign firms **for the account of their foreign parent firm**. (Report them as transactions with unaffiliated foreign persons.)
- D. Report transactions with foreign persons made by your foreign affiliate **for your account**. (Report them as transactions with unaffiliated foreign persons.)

III. WHAT NOT TO REPORT

- A. Do **not** report transactions with U.S. affiliates of foreign firms **for their own account**. Transactions with these U.S. affiliates are considered domestic-to-domestic for the purposes of this survey.
- B. Do **not** report transactions with foreign persons made by your foreign affiliates **for their own account**.

GENERAL INSTRUCTIONS – Continued

The fully consolidated U.S. domestic enterprise excludes foreign branches and other foreign affiliates. Conditions may exist that would lead a U.S. corporation to exclude certain majority-owned (more than 50 percent owned) domestic subsidiaries from financial statements used in reports to shareholders. V. OTHER INSTRUCTIONS

A. Differentiating between U.S. and foreign persons

In Part IV.G.2. of these Instructions, a “foreign person” is defined as any person resident outside the United States or subject to the jurisdiction of a country other than the United States. Persons that reside or expect to reside for 1 year or more in a foreign country are considered to be foreign persons. International organizations are considered to be foreign persons whether they are based in the United States (such as the International Monetary Fund, Inter-American Development Bank, United Nations, World Bank, and the Organization of American States) or abroad.

The following sources may be helpful in identifying and classifying by country financial services transactions with foreign persons:

- 1. Billing records or mailing address information** to identify the country of the foreign person(s) – report sales to and purchases from a given foreign country, or international organization, if the billing records or mailing address identify that foreign country as the location of the foreign person that was a party to the transaction.
- 2. IRS Form W-8, Certificate of Foreign Status** filed by foreign persons, and IRS Form W-9, Request for Taxpayer Identification Number and Certification (filed by U.S. persons).
- 3. Any other available information** on residency of persons with whom you have sold or purchased financial services.

NOTE: Steps 2 and 3 above may be necessary when foreign customers provide billing addresses of U.S. agents or other locations of convenience in the United States.

B. Who must report a transaction when an intermediary is involved

Financial services transactions between a U.S. person and a foreign person are frequently arranged by, billed through, or otherwise facilitated by a financial services provider or intermediary. The intermediary may be U.S. or foreign and may be affiliated or unaffiliated with the U.S. or the foreign person. The U.S. financial services provider or intermediary that directly deals with a foreign person and not the U.S. customer of the intermediary is typically responsible for reporting the transaction on this survey.

Use the following guidelines to determine who should report data on payments of brokerage fees and commissions (service codes 1 and 2) in cases where more than one U.S. financial services provider is involved in the transaction.

- If a U.S. broker is involved in the transaction, the broker should report the data on payments of brokerage commissions.

GENERAL INSTRUCTIONS – Continued

- If a U.S. broker is not involved, a U.S. financial manager, such as a fund or investment manager, involved in the transaction should report the data.
- If neither a U.S. broker nor a U.S. manager is involved in the transaction, a U.S. custodian should report; this would be the case, for example, if the principal uses a foreign (rather than a U.S.) financial manager but a U.S. custodian. (In this case, the custodian may wish to contact the principal to determine which of its financial managers are foreign persons.)
- If the custodian does not have or cannot obtain the information needed to report, then the U.S. principal or its paying agent should report the data; the U.S. principal must make the determination of whether it or its paying agent is responsible for reporting.

Respondents may deviate from these guidelines by agreement among themselves. Please confer with one another to assure that the data reported on payments of brokerage commissions are neither omitted from all BE-185 reports, resulting in undercounting of data, nor reported on more than one BE-185 report, resulting in duplication.

C. Distinguishing between affiliated and unaffiliated transactions

This survey covers U.S. persons' direct transactions, both sales and purchases, with affiliated and unaffiliated foreign persons. Examples of affiliated transactions are:

- A transaction between a U.S. person (U.S. parent) and its foreign affiliate.
- A transaction between a U.S. person (U.S. affiliate) and its foreign parent(s) or member(s) of the foreign parent group(s).

Examples of unaffiliated transactions are:

- A transaction between a U.S. person and an unaffiliated foreign person.
- A transaction between one U.S. person and another U.S. person's foreign affiliate. Such a transaction is reportable by the first U.S. person.

Examples of transactions that are **not** reportable are:

- A transaction between a U.S. affiliate of a foreign parent and another U.S. person.
- A transaction between a U.S. parent's foreign affiliate and another foreign person.

D. Understanding the U.S. Reporter's relationship with foreign persons

The relationship between the U.S. Reporter and the foreign persons fall into one of three categories:

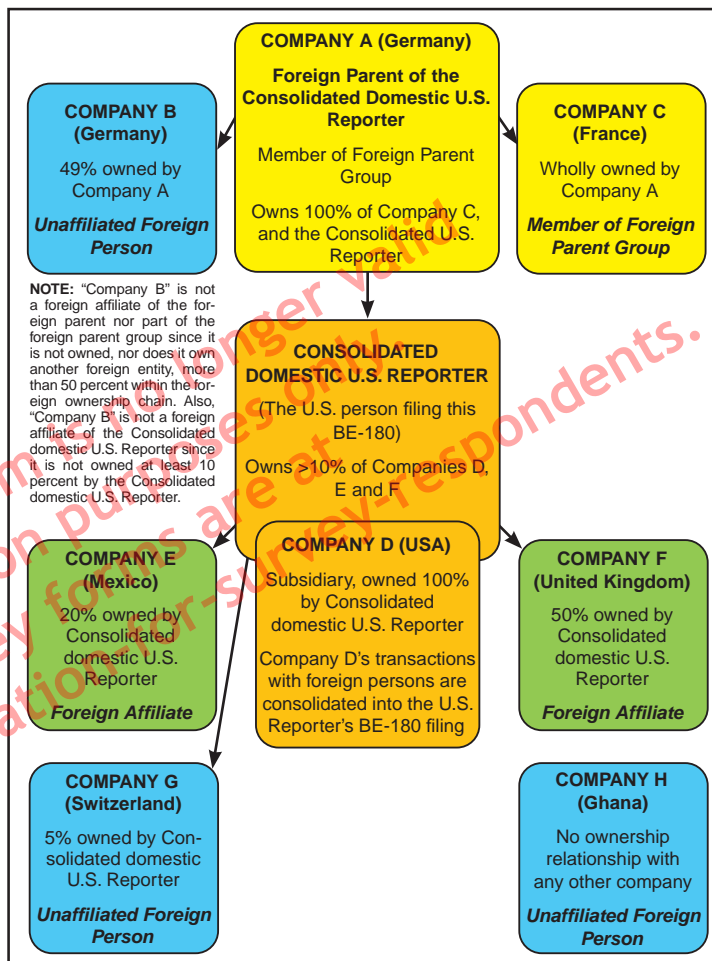

Foreign affiliates – A foreign affiliate is defined as an entity domiciled in a foreign country that is owned at least 10 percent, directly or indirectly, by the U.S. Reporter.

Foreign Parents (FP) and Foreign Affiliates of Foreign Parents (FAFP) (aka the "foreign parent group") means all of the following:

- (i) the foreign parent, which is the first entity outside the United States in a foreign chain of ownership, that owns at least 10% (based on voting interest), directly or indirectly, of the consolidated domestic U.S. business enterprise.
- (ii) any foreign entity proceeding up the foreign parent's ownership chain, that owns more than 50 percent of the entity below it up to and including the entity that is not owned more than 50 percent by another foreign entity,
- (iii) any foreign entity that, proceeding down the ownership chain(s) of each of these members, is owned more than 50 percent by the entity above it.

Unaffiliated foreign persons – An unaffiliated foreign person is an entity domiciled abroad that is owned less than ten percent, directly or indirectly, by the U.S. Reporter or the U.S. Reporter's foreign parent.

The following diagram illustrates each of these relationships with regards to the U.S. Reporter.

E. Foreign activities of a U.S. person that do not constitute a foreign affiliate

Although the definitions of direct investment and foreign affiliate in Parts IV and V. above, should be sufficient to determine whether a given foreign activity is or is not a foreign affiliate, in a number of cases the determination may be difficult. Several factors to be considered are given below. If you still cannot determine if the activity or operation is an affiliate, call (301) 278-9303 or send an e-mail to bea-180help@bea.gov for additional guidance.

If a U.S. person's foreign activity or operation is incorporated abroad, it is a foreign affiliate.

If a U.S. person's foreign activity or operation is not incorporated abroad, its status is based on the weight of the evidence when the factors listed below are considered.

An unincorporated foreign activity or operation generally would be considered a foreign affiliate if it: (i) is subject to foreign income taxes; (ii) has a substantial physical presence abroad (e.g., plant and equipment or employees); (iii) maintains separate financial records that would permit the preparation of financial statements, including an income statement and balance sheet (not just a record of disbursements and receipts); (iv) takes title to the goods it sells and receives revenues therefrom; or (v) receives funds for its own account from customers for services it performs. Transactions with this type of entity should be reported under "Foreign affiliates."

An unincorporated foreign activity or operation generally would not be considered a foreign affiliate if it: (i) conducts business abroad only for the U.S. person's account and not for its own account (e.g., sales promotion or public relations type of activities); (ii) has no separate financial statements; (iii) receives funds to cover its expenses only from the U.S. person; (iv) is not subject to foreign income taxes; and (v) has limited physical assets, or employees, permanently located abroad. Transactions with this type of entity should be reported under "Unaffiliated foreign persons."

GENERAL INSTRUCTIONS – Continued

F. International Organizations

Report transactions with international organizations, such as the International Monetary Fund, which, for the purposes of this survey, are considered foreign persons even if they are headquartered in the United States. Enter "International Organization" as the name of the country of the foreign party of the transaction.

VI. SERVICES COVERED

This survey covers sales (**Schedule A**) and purchases (**Schedule B**) in the form of fees, commissions, and other charges for the following types of financial services:

- 1. Brokerage services related to equity transactions** – Report on Schedule A your receipts of commissions and fees (inclusive of taxes and stamp duties) directly from foreign customers for executing orders to purchase or sell equity securities. Report on Schedule B your payments of commissions and fees directly to foreign brokers for executing your or your customers' equities orders. Include brokerage transactions with foreign persons conducted over the Internet and electronic communications networks (ECNs).
DO NOT report income where you were a dealer or other principal who was at risk of incurring a loss on the financial instruments rather than acting solely as the broker. For example, exclude income from marking positions to market and inherent earnings from dealer markups on buy and sell transactions (that is, bid/ask price spreads in dealing in securities).
2. Other brokerage services – Report on Schedule A your receipts of commissions and fees (inclusive of taxes and stamp duties) directly from foreign customers for executing orders to purchase or sell options, futures, and other financial instruments. Also include fees and commissions on brokering foreign currencies. Report on Schedule B your payments of commissions and fees directly to foreign brokers for executing your, or your customers', orders related to options, futures or other financial instruments. Include brokerage transactions with foreign persons conducted over the Internet and ECNs.
Include cryptocurrency exchange fees.
Report origination fees in connection with the over-the-counter derivative financial instruments only if the fees are separately identified in transaction documentation issued by the dealers in the instruments to the customers, and are not considered undifferentiated components of overall trading or marketmaking gains.
DO NOT report income where you were a dealer or other principal who was at risk of incurring a loss on the financial instruments rather than acting solely as the broker. For example, exclude income from marking positions to market and inherent earnings from dealer markups on buy and sell transactions (that is, bid/ask price spreads in dealing in bonds, foreign currencies, and other financial instruments).
Report brokerage commissions for arranging a joint venture in service code 10, Other financial services. Report multi-currency conversion fees of credit card companies in service code 6, Credit card services.
DO NOT report fees for commodity or merchandise brokerage services, real estate brokerages, and business services brokerage because they are not considered to be financial services (as opposed to fees for purchasing or selling commodity futures and other financial instruments that are reportable on this survey).
3. Underwriting and private placement services – Report in underwriting services your earnings from buying and reselling an entire or substantial portion of newly issued securities. Report on Schedule A as negative sales your losses from purchasing securities from a foreign person (issuer or lead underwriter) and reselling them at a lower price. (This is the only financial service category where negative amounts may be reported.)
Also report fees you received from an issuer of securities for privately placing its securities, or fees that you paid to a foreign person who privately placed your securities, including fees on dealer-placed commercial paper. Do not report earnings from buying and selling (i.e., trading) commercial paper or other securities for your own account, because they are not considered to be financial services.
Where you are lead underwriter, report separately your receipts of underwriting fees and payments of selling concessions and other expenses. Report on Schedule A your underwriting fees, before deduction of selling concessions paid to other members of the

syndicate, according to the country of the person (issuer) from whom you purchased the securities. Report on Schedule B your selling concessions and reimbursements for expenses paid by you to foreign members of the syndicate based upon the country(ies) of the foreign syndicate members receiving these sums.

Where you are a syndicate member other than the lead underwriter, report on Schedule A selling concessions received by you based upon the country of the lead underwriter.

Report payments of underwriting fees (on Schedule B) by an issuer of securities as:

The estimated gross proceeds to the foreign lead underwriter from the sale to the public of the securities calculated as the number of units of securities sold times the per unit public offer price,

MINUS

The net proceeds received by the issuer from the foreign lead underwriter.

Classify these payments according to the country of the foreign lead underwriter.

Report fees or commissions received by, or paid to, intermediaries that arrange the sale of securities (including mutual funds shares) they do not themselves own as brokerage services (under service code 1) rather than as underwriting services.

- 4. Financial management services** – Report sales (purchases) related to transactions in which the provider of the service has the authority to direct the use or investment of funds or other assets. Report fee income from (to) foreign persons for managing or administering financial portfolios, such as cash, securities, futures, and other financial instruments or assets, if you (they) have this authority. Report these fees whether the assets are held by the manager or held by a custodian. Report fees from actively managed accounts (where research and market timing skills are also provided) and fees from passively managed, or indexed, accounts.

U.S. persons (including trustees and fiduciaries with management authority) should report on Schedule A their fees from managing **foreign** commodity pools, mutual funds, hedge funds, trusts (including trusts containing mortgages), etc. (which are considered foreign persons). Do not report fees from managing U.S. mutual funds, hedge funds, trusts (including trusts containing mortgages), etc., (which are considered U.S. persons) **unless** the management fee is charged directly to a foreign investor, owner, beneficiary, maker, etc. of the U.S. mutual fund, hedge fund, or trust rather than charged to the U.S. mutual fund, etc. itself.

Report fees under service code 7, Financial advisory and custody services, if a U.S. or foreign person has input into the decision making process but does not have the authority to direct the use or investment of funds or other assets.

Report under service code 7, Financial advisory and custody services, sales to and purchases from foreign persons (including foreign-based custodians or subcustodians) related to managing the custody or safekeeping of securities.

Foreign participation in U.S. futures markets frequently occurs indirectly when foreign persons invest directly in a foreign commodity pool that, in turn, invests directly in the U.S. futures market. Foreign commodity pools may be organized by U.S. commodity pool operators (CPOs), such as U.S. brokerage institutions. U.S. CPOs report on Schedule A fees from managing foreign commodity pools, including additional management fees received based on positive returns. Exclude gains and losses to principal amounts you have invested in the pool; in this case, your earnings are considered to be capital gains, which are not covered on Schedules A and B. (Similar guidelines pertain to the earnings of U.S. persons who manage foreign hedge funds; that is, report management fees, including additional fees based on positive returns, but do not report gains or losses to principal amounts invested in the funds.)

DO NOT report sales (purchases) of your foreign affiliates to (from) foreign persons. For example, where your foreign affiliate manages foreign assets, do not report the management fee paid by foreign clients to your foreign affiliate because the fee was not received by the U.S. Reporter from a foreign person. (See Part V. of the Instructions for a discussion of foreign activities of a U.S. person that constitute a foreign affiliate.) Similarly, do not report fees paid by you to, or received by you from, a U.S. affiliate of a foreign person.

GENERAL INSTRUCTIONS – Continued

DO NOT report funding for foreign sales promotion and representative offices in this survey. Report such funding on Form BE-120 and BE-125. (See BEA's web site www.bea.gov/ssb for information on whom to call regarding these forms.)

5. Credit-related services, except credit card services – Report fees received from or paid to foreign persons, including fees paid directly and fees that are withheld or deducted from the proceeds for:

- Credit-related or lending-related services, such as fees for renegotiating debt terms and fees for establishing/originating, maintaining, accepting or arranging standby letters of credit
- Commercial and similar letters of credit
- Letters of indemnity
- Lines of credit
- Participations in acceptances
- Mortgages
- Credit facilities
- Reimbursement commissions for honoring import letters of credit (ILCs), and of discrepancy fees for financial services provided when goods imported under ILCs do not fully meet specifications
- Factoring services
- Issuing financial guarantees and loan commitments (to make or purchase loans)
- Arranging or entering into financial lease contracts
- Credit-related services received by or paid to note issuance facilities (NIFs)

DO NOT report underwriting fees on notes issued by NIFs (these should be reported under service code 3, Underwriting and private placement services). Also, do not report interest received or paid, including discounts and premiums on notes purchased or sold.

If you are a member of a loan syndicate, or of loan participations other than syndicates, report fees received and paid for organizing, managing, or participating in the operation. Do not report the sale of assets (that is, of parts or shares in the syndicated loan), because these are not financial services. Where you have collected a fee from a foreign person on a loan syndication and passed through a portion of the fee to foreign syndicate members, report the total fee you received on Schedule A and report the portion of the fee you passed through on Schedule B. Borrowers under loan syndicates or loan participations other than syndicates should report payments of fees according to the country of the lead manager of the syndicate.

Report payments of credit-related fees in the accounting period in which the fee is assessed by the provider of credit-related services, whether included in expenses for that particular accounting period or amortized over several accounting periods.

If compensating balances are reflected in the cost of credit-related services, report the (net) amount received or paid for credit-related services after credit for the value of the compensating balances. Do not report the value of the compensating balance to the bank (in the form of foregone interest expense). If the bank returns some portion of its savings to its customers in the form of a credit against other financial services provided, the amount to report for the other financial services provided should be the reduced charge after consideration of this credit.

6. Credit card services – Report all cross-border sales and purchases related to credit card services, whether paid separately or in the form of a discount from face or par value.

U.S. credit card companies must report specified transactions in which they themselves engage with foreign persons, as well as specified transactions of their independent issuers or acquirers with foreign persons. **To avoid duplication, independent credit card issuers and acquirers are exempt from reporting data under credit card services.**

Listed below are the major types of credit card services sold to or purchased from foreign persons. The credit card company must report separately total receipts (sales) and payments (purchases) through the system it controls or monitors. Total receipts (or total payments) of credit card services are the sum of receipts (or payments) from all of these services combined.

- Transaction and service fees received from or paid to foreign acquirers and issuers

- Interchange received from foreign acquirers or paid to foreign issuers
- Discount (including interchange and overhead assessments, reimbursements for telecommunication services, etc.) received from or paid to foreign acquirers and issuers
- Payments to foreign issuers, acquirers, or merchants under guarantees to protect them from losses from a default in the processing network
- Fees you received from foreign issuers for credit authorization services
- Fees you received from foreign issuers for listing lost or stolen credit card numbers in warning bulletins or on electronic files
- Resignation assessments or membership fees received from foreign issuers and acquirers
- Multi-currency conversion fees received from foreign issuers or paid to foreign acquirers, processing centers, or issuers

Independent issuers, acquirers, and processors must report credit card services that are conducted outside the system controlled or monitored by the credit card companies. Such transactions may include annual dues and other fees received by issuers from cardholders, payments to processors by independent issuers and acquirers, and any interchange reimbursements that do not go through the credit card system.

DO NOT report receipts or payments for credit card enhancements, such as travel insurance, extended warranties, and discounts on tour packages or other purchases.

7. Financial advisory and custody services – Report sales to and purchases from foreign persons (including foreign-based custodians or subcustodians) related to managing the custody or safekeeping of securities. Include the following:

- Financial advisory services on mergers and acquisitions
- Investment newsletters or investment advice
- Commodity trading advisory services
- Proxy voting advisory services
- Custody services (including payments and settlements services such as mortgage servicing services)
- Other advisory and custody services provided by U.S. or foreign persons who have no discretion, or who have very limited discretion, to act independently from instructions provided by the investor or another principal

Include services with foreign persons conducted over the Internet.

Include fees for cryptocurrency custody services.

Exclude services where you are at risk of incurring a loss, such as underwriting and private placement services (service code 3).

U.S. issuers of American Depositary Receipts (ADRs) and American Depositary Shares (ADSs) – Report on Schedule B your payments to foreign correspondent institutions for holding the securities backing the ADRs and ADSs. U.S. issuers of ADSs should also report, on Schedule A, any receipts of sponsorship fees from foreign persons.

DO NOT report fees received from or paid to a U.S. subsidiary (or U.S. affiliate) of a foreign person, because, for the purposes of this survey, these are considered U.S., not foreign, persons.

Where you have complete (or substantially complete) discretion to act independently from instructions provided by investors or other principals, report your receipts under service code 4, Financial management services. Where you are an investor or principal, and a foreign person has complete (or substantially complete) discretion to act independently on your behalf, report your payments under service code 4.

If the custodian does not have or cannot obtain the information needed to report, then the U.S. principal must make the determination of whether it or its paying agent is responsible for reporting.

8. Securities lending services – U.S. securities lenders and borrowers and their agents should report amounts received directly from or paid directly to foreign persons for lending or borrowing

GENERAL INSTRUCTIONS – Continued

securities. Report fees received by or paid to principals or agents for arranging loan terms and conditions, monitoring the value of collateral, providing guarantees against default, and providing other securities lending services. Report rebates received or paid on "borrow versus cash transactions." Do not report amounts received from or paid to foreign persons by a U.S. or foreign agent upon the default of a customer, because such payments are not considered to be for financial services. Do not report interest under repurchase or reverse repurchase agreements, because interest is not reportable (although, as mentioned, rebates are reportable) on this form.

- 9. Electronic funds transfer services** – Report fees for the electronic funds transfers of money or financial assets received directly from or paid directly to foreign persons. Include payments to SWIFT.

Include fees related to cryptocurrency mining services.

- 10. Other financial services** – Report the **total** amount of sales to or purchases from foreign persons related to all other financial services combined. Report the type of service(s) accounting for the largest share of the value being reported on line 31 at the bottom of Schedule A/B. Examples of services that may be reported under this category include:

- Asset pricing services
- Security exchange listing fees
- Demand deposit fees
- Securities rating services
- Check processing fees
- Overdraft fees
- Mutual fund exit fees, load charges, 12b–1 service fees, and hedge fund exit fees
- Security redemption or transfer services
- ATM network services
- Securities or futures clearing and settling services
- Brokerage services not covered above, such as for arranging joint ventures

DO NOT report real estate brokerage fees (real estate services), business brokerage fees (business services), and commodity or merchandise brokerage fees (wholesale or retail trade services), because these are not considered financial services.

Note that some types of financial services are not covered on this form. See *Part VII. of the Instructions for a list of types of transactions not to be reported.*

VII. TYPES OF TRANSACTIONS EXCLUDED FROM COVERAGE

Do not report the following types of transactions on this survey:

- A. Stock quotation and financial information services** – These are instead covered by Forms BE-120 and BE-125, under Database and other information services. (See *BEA's web site www.bea.gov/ssb for information regarding these forms.*)
- B. Insurance premiums and losses, and commissions on insurance** – These are covered on other BEA forms. (See *BEA's web site www.bea.gov/ssb for information regarding these forms.*) Charges at the individual policy level also are not covered.
- C. Annuity purchases and payments to annuitants** – Annuity purchases and payments to annuitants are not covered. Also, charges at the individual policy level, including insurance company fees on variable annuities, are not covered.
- D. Pension fund contributions and benefits** – Pension fund contributions and pension benefits are not covered. However, U.S. pension funds may engage in other financial services transactions that are reportable on this form, including payments of brokerage commissions and fees for investment management or financial advisory services to foreign persons.
- E. Interest and dividend receipts and payments** – For the purposes of this survey, interest and dividends are considered to be investment income rather than income from services, and are therefore not covered by this survey.

- F. Premiums and other proceeds from writing (selling) options, forwards, futures, and swaps** – Premiums from writing options, and fees and other proceeds from writing forwards, futures, and swaps are not covered. However, explicit brokerage commissions on transactions in these financial instruments are covered under service code 2, Other brokerage services transactions.
- G. Earnings of principals from buying and selling (including dealing, trading, holding, or arbitrage) of financial instruments, except foreign currency exchange transactions** – For the purposes of this survey, these types of earnings are considered to be "capital gains" (that is, earnings that are not from current production) rather than payments for financial services, and are therefore not covered. However, underwriting is considered to be a financial service and is covered under service code 3. Underwriting and private placement services related to debt and equity transactions.
- H. Foreign currency exchange transactions** – Bid/ask price spreads and trading profits on currency exchange transactions are not covered. However, explicit commissions paid to currency exchange brokers are covered under service code 2, Other brokerage services transactions.
- I. Bond transactions** – Bid/ask price spreads and trading profits on bond transactions are not covered. However, explicit commissions paid to bond brokers are covered under service code 2, Other brokerage services.
